

Special Education Director

The Alabama State of Department of Education is excited to offer targeted professional development and coaching designed specifically for special education directors and coordinators.

A professional learning platform created for Special Education directors, coordinators, and leaders

Playbook is a virtual learning platform combines eight self-paced sessions called plays with coaching and webinars. This eight month, flexible professional development is recommended for teachers of students with significant disabilities. Teachers are able to progress through each play at their own pace while discovering strategies that can be immediately implemented in their classrooms. Registration ensures access to Playbook and coaching resources and training for teachers.
