

Special Education Teacher Playbook

The Alabama State of Department of Education is excited to offer targeted professional development and coaching designed specifically for special education teachers.

A professional learning platform created for special education teachers.

Playbook is a virtual learning platform that combines self-paced modules, called Plays, with coaching, mentoring, and collaboration experiences. Playbook topics span an array of best-practices for special education teachers, including: using progress monitoring to assess IEP goals, conducting a Functional Behavior Assessment, applying Universal Design for Learning strategies, using positive behavioral strategies, and more!
